Medical Equipment Planning

Construction Administration

Accreditation Assistance

*Patients seek physicians  
who are leaders and experts  
in health care delivery.*

*Likewise, physicians should  
select their architect based  
on the same criteria.*

*Jeff Powell, AIA  
Principal*

- Ophthalmology
- Orthopaedics
- Optometry
- Pain Management
- Plastic and Cosmetic Surgery
- Urology

Since 2000, our teams of **architects, interior designers, and engineering consultants** have developed over 40 private health care environments, including ambulatory surgery centers and medical clinics, throughout the southeastern United States. We constantly strive to improve the way physicians practice, by designing for the way they want to practice.

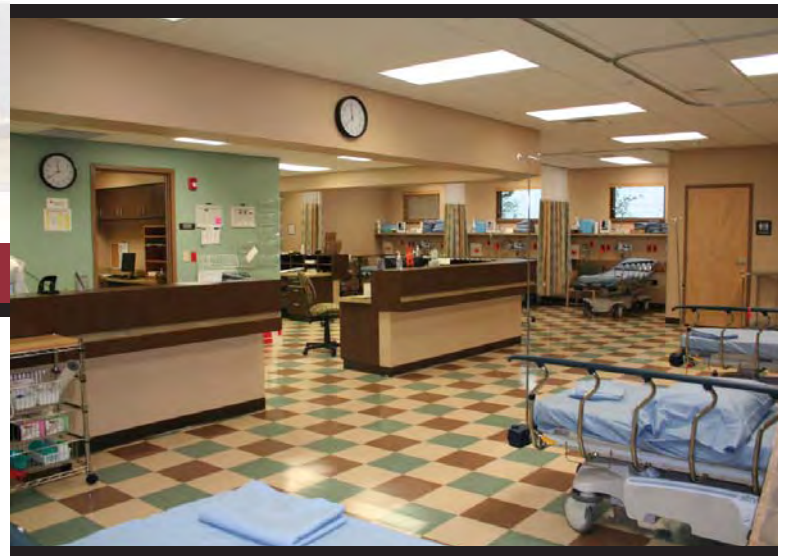

Efficiency in health care delivery can make or break a practice. As experts in the design and development of private health care environments, we know how to **make your practice more efficient and profitable.**

*Innovation*

**We are creative thinkers who strive to improve the way healthcare practices operate.**

*Solutions*

Through **innovation in design**, our clients are able to see more patients per day, reduce staff requirements, operating costs, increase productivity, revenue, staff and physician recruitment, and most of all patient satisfaction.

**Together we will make ordinary healthcare become extraordinary.**
